

# Tri-Fortify™ Orange

Liposomal Glutathione & Vitamin C

## Efficacious & Economical

Tri-Fortify™ Orange provides the preferred reduced L-glutathione, the major intracellular antioxidant essential for detoxification in the body, plus vitamin C, in an absorbable liposomal delivery system. The unique liposome structure allows it to combine effectively with the body's natural fluids and penetrate its protective membranes, bypassing the digestive system and directly entering the blood stream. By avoiding the process of digestion, nutrient absorption and utilization is much quicker and more complete.

We have developed a new delivery system: a pleasant natural orange flavored gel that you squeeze onto a spoon and enjoy. No need to mix with juice. Tri-Fortify™ Orange effectively encases the glutathione, offering you a juicy orange taste profile unmatched by any other glutathione product.

Our product formulators developed Tri-Fortify™ Orange with the goals to optimize efficacy and to reduce cost per serving. You will find the cost per serving (with 450mg of glutathione and 50mg vitamin C) extremely advantageous --- offering the patient 48 servings per squeeze tube.

## Proven Stable in High Heat

We contracted with a third party lab to subject Tri-Fortify™ Orange to the most extreme conditions: 104° F and 75% humidity for 90 consecutive days. The result: product met & exceeded the nutrient content on the label.

**Tri-Fortify™ Orange - Efficacious, Economical, Heat Stable, Good Taste**
